## EDUCATION

### Shree L. R. Tiwari College of Engineering

Bachelor of Engineering in Information Technology

Mumbai, India

Aug 2024 – Aug 2027

### Kala Vidyamandir Institute of Technology

Diploma in Computer Engineering Technology

Mumbai, India

Oct 2019 – Oct 2023

## TECHNICAL SKILLS

**Languages:** Java, JavaScript, HTML5, CSS3, SQL

**Frontend Technologies:** React.js, Responsive Web Design, UI/UX Design, Bootstrap

**Backend Technologies:** Node.js, RESTful APIs, Database Management, Server-Side Development

**Cloud & DevOps:** Cloud Computing, AWS, Deployment Strategies, CI/CD, Docker

**Tools & Platforms:** Git, GitHub, VS Code, Linux, Agile Methodologies

**Soft Skills:** Technical Troubleshooting, Technical Support, Problem Solving, Team Collaboration

## EXPERIENCE

### Co-Technical Head

Information Technology Student Association (ITSA), SLRTCE

Aug 2025 – Present

Mumbai, India

- Lead technical initiatives and mentor 100+ students in web development, cloud computing, and software engineering best practices
- Organize and conduct technical workshops, hackathons, and coding bootcamps to enhance peer learning and collaboration
- Collaborate with faculty and industry professionals to bridge the gap between academic curriculum and industry requirements
- Manage technical projects and guide teams in full-stack development and cloud deployment strategies

### Frontend Web Developer

Tsunami Media

Jun 2024 – Sep 2025

Mumbai, India

- Developed responsive, mobile-first web applications using HTML5, CSS3, JavaScript, and modern frontend frameworks
- Collaborated with designers and backend developers to implement pixel-perfect UI/UX designs and seamless API integrations
- Optimized website performance achieving 40% faster load times through code optimization and asset management
- Implemented cross-browser compatibility and accessibility standards (WCAG) ensuring inclusive user experiences
- Utilized version control (Git/GitHub) for collaborative development and maintained comprehensive code documentation

### Software Development Intern

Raberman Software

Previous

Mumbai, India

- Contributed to full-stack development projects using Java and JavaScript, gaining hands-on experience in enterprise software development
- Participated in agile development cycles including sprint planning, code reviews, and continuous integration processes
- Debugged and resolved technical issues, improving application stability and user satisfaction

## PROJECTS

---

**Full-Stack Web Application** – Built end-to-end web application with React frontend and Node.js backend, implementing user authentication, RESTful APIs, and database integration with MySQL. Deployed on cloud infrastructure with automated CI/CD pipeline.

**Cloud-Based Mobile App** – Developed cross-platform mobile application focusing on seamless user experience and scalability. Integrated cloud services for real-time data synchronization and implemented efficient state management.

**Technical Content Creation** – Created educational content and tutorials on web development, JavaScript, and cloud technologies, building a community of learners and contributing to open-source documentation.

## ACHIEVEMENTS & LEADERSHIP

---

Selected as Co-Technical Head of ITSA, leading technical strategy and student engagement initiatives

Successfully delivered production-ready web applications at Tsunami Media, receiving recognition for code quality and performance

Active contributor to tech community through content creation and knowledge sharing on emerging technologies
